

GERDA infrastructure

See minutes of recent infrastructure meeting
at LNGS on Feb08, 2006 !
Evaluate and fill-in form circulated by Matthias !

Send your quasi-final drawings to the new
GERDA project engineer, Manuela Castagna, for
integration into grand assembly drawing !

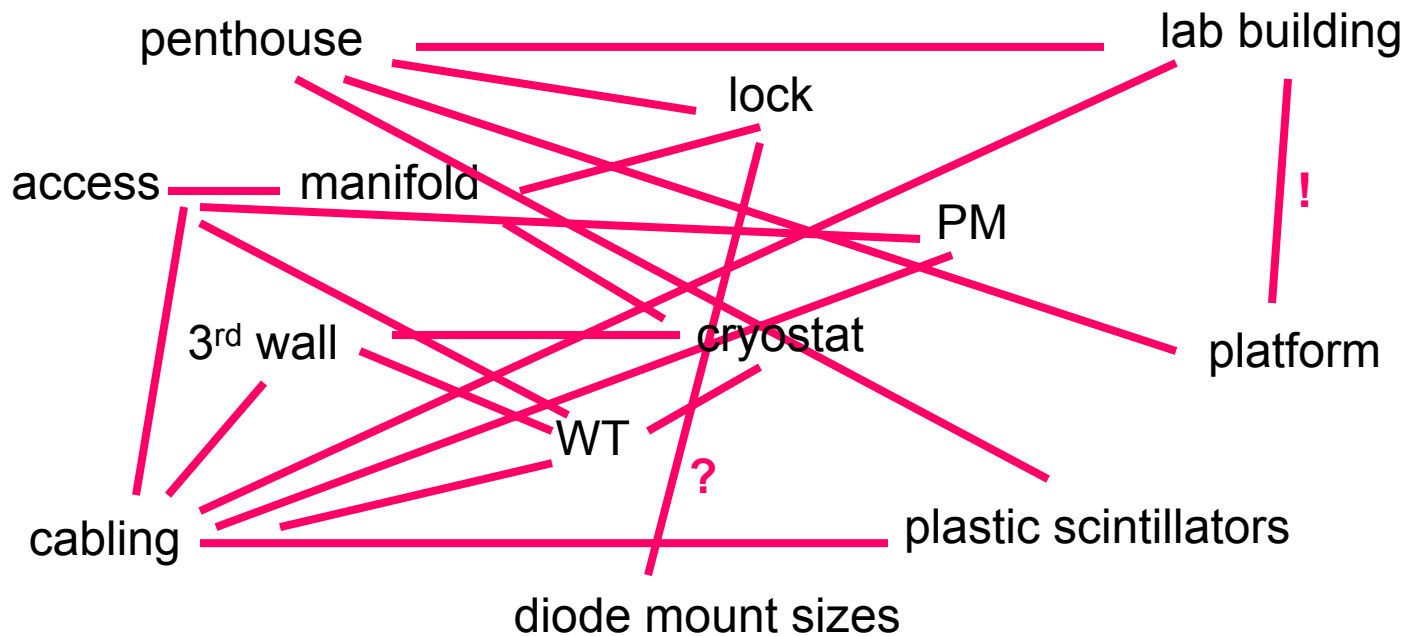

Or always via GERDA ?

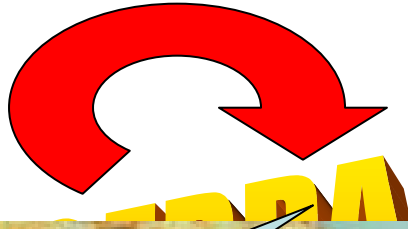

- ▶ allocation of 'quasi-permanent space for GERDA infrastructure (e.g. storage tanks, Rn reduced air plant, LN purification plant, water pipe, nitrogen/argon exhaust-gas heaters,.....)
- ▶▶ allocation for temporary storage space during GERDA construction (concurrent with CUORE installation)
- ▶ general supplies (e.g. [ups] **electrical power**, water, pressurized air, gas bottles, waste water services, ▶ **fill in spreadsheet circulated by Matthias asap**)
- ▶ interfaces WT - water drain system, exhaust gas – heater- ventilation system
- ▶ integration of GERDA within LNGS safety system
- ▶▶ time schedule for installation WT, cryostat. platform, etc.

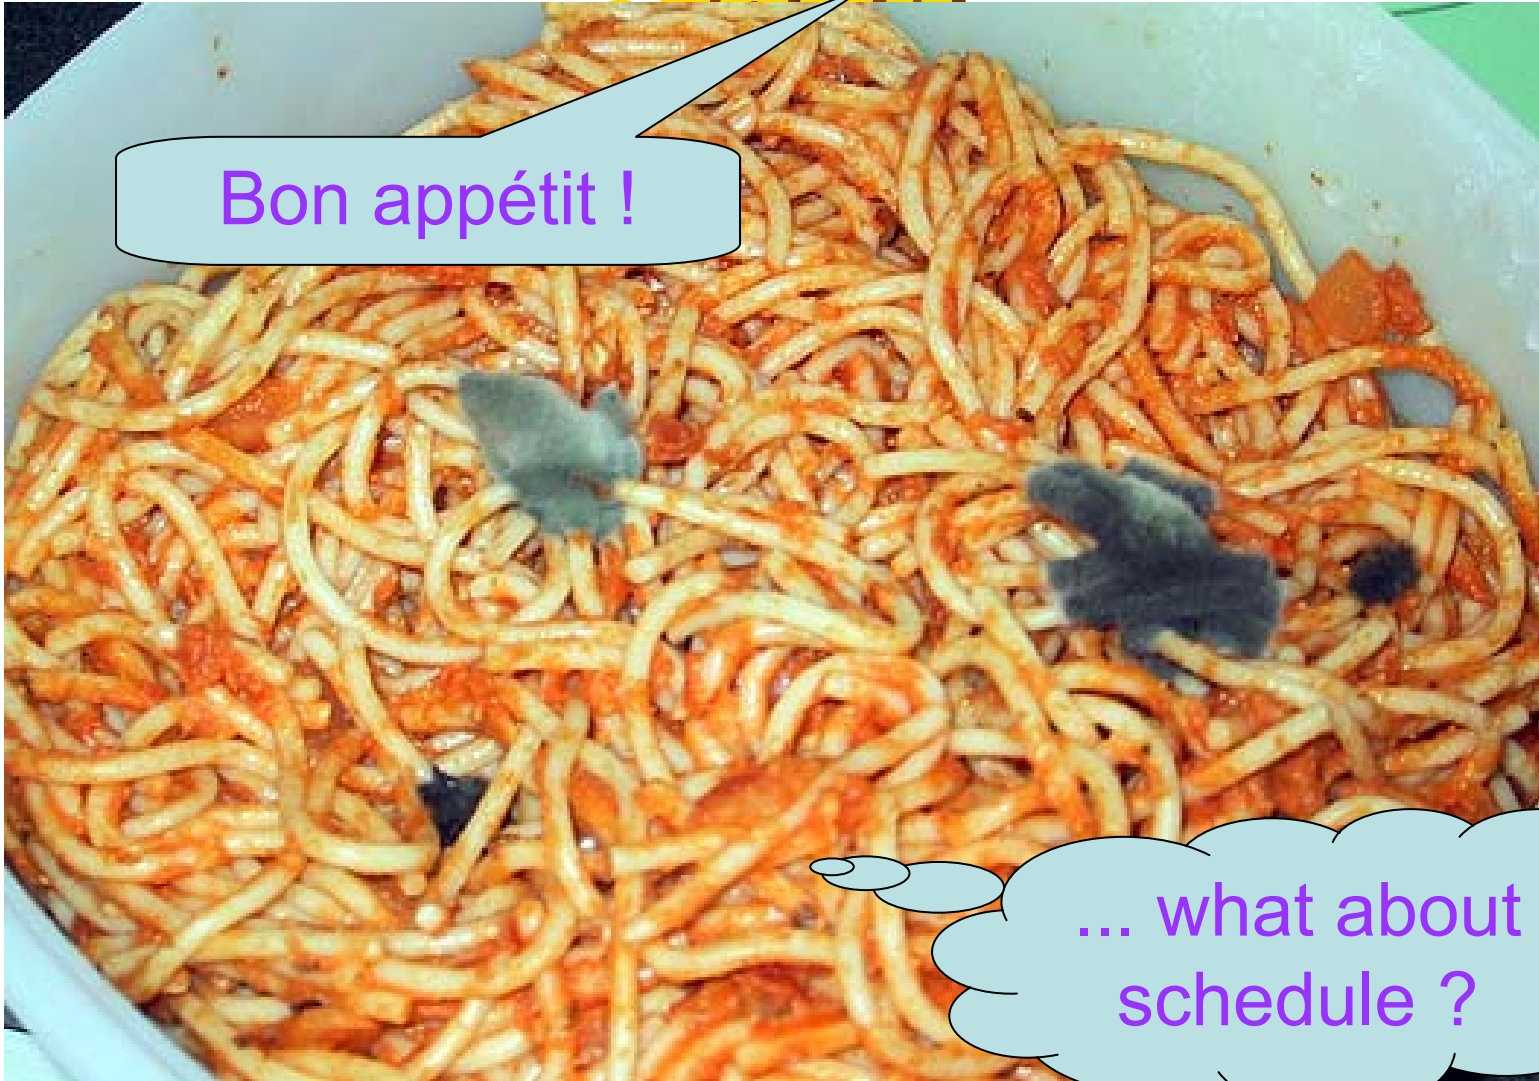

and more !

What about schedule ?!

Bon appétit !

... what about
schedule ?
