

High Energy Phenomena in Relativistic Outflows

September 24-28, 2007

Dublin, Ireland

Physics Topics:

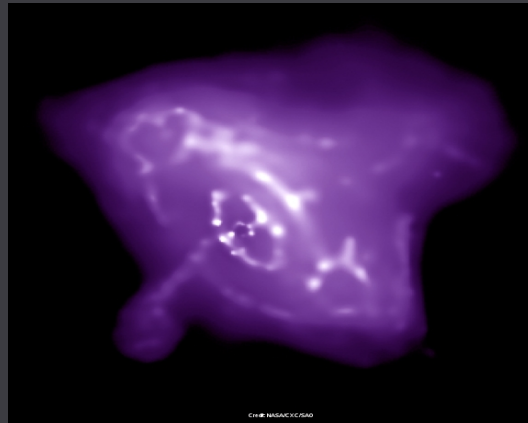

*magnetohydrodynamics
particle acceleration and transport
radiation and absorption processes*

Astrophysical Objects:

*Active Galactic Nuclei
gamma-Ray Bursts
microquasars
pulsar Winds*

Energy Bands:

from radio to TeV gamma-rays

Organizing Committee:

Felix Aharonian (chair),
Katherine Blundell,
Paolo Coppi, Luke Drury,
Peter Duffy, Peter Meszaros,
Josep M. Paredes, Tom Ray,
Gustavo E. Romero, Guy Pelletier,
Marek Sikora, Marco Tavani
