

## Clean Room:

Crane installed: to be done: test with 2 \* 500kg (lead)  
Shorten beam to have space for  
clean room wall opening

## Clean Room:

Installed cryostat neck-clean room seal.  
Good for test run.

To de done: Once finished, change seal

## Clean Room: Electronics cabinet

Cabinet has light, no electricity

→ Need connection

Cabinet doors do not open properly

→ Need to remove hand-rail, extend area in front of cabinet

Cabinet is small:

→ Build a WARP type tent in front to extend working area?
