

Prof. Bogdan Povh
CURRICULUM VITAE

20 August 1932	born in Belgrad, Yugoslavia, as son of Dr. Vjekoslav Povh, political economist, and his wife Olga
December 1936	move to Ljubljana, Slovenia
September 1955	diploma in physics at the University of Ljubljana, assistant at the Institute „J. Stefan“, Ljubljana
1957	marriage to Dipl. Ing. Anna Krizanic
Oct. 57-Dec. 59	research fellow at the California Institute of Technology, Pasadena, USA; spectroscopy of light nuclei
Jan. 60-July 60	assistant at the physics department of the University Freiburg, Germany; measurements of Delbrück scattering
Sept. 60-Sept. 62	assistant at the Institute „J. Stefan“, nuclear photo-effect and gamma capture of protons in light nuclei
December 1960	doctor's degree from the University of Ljubljana
September 1962	assistant at the University of Freiburg
February 1964	habilitation at the University of Freiburg
1 June 1965	associate professor at the University of Heidelberg, Germany
8 December 1966	full professor at the University of Heidelberg; main research interest in nuclear and high-energy nuclear physics
since 1968	permanent group at CERN/Geneva, Switzerland; main research interest in nuclear and high-energy nuclear physics
1969/70	sabbatical at CERN
fall term 72/73	sabbatical at the Lawrence Berkeley Laboratory, USA
since 1975	director at the Max-Planck-Institut für Kernphysik, Heidelberg; corresponding member of the Slovenian Academy of Science and Arts
since 1978	editor of Zeitschrift für Physik A
1983/84	sabbatical at CERN
1988/89	sabbatical at the Los Alamos Nat. Laboratory, USA, and CERN
1989-1997	editor-in-chief of Zeitschrift für Physik A
Jan. 97-July 97	visiting professor at the University of California at Berkeley, USA
1998-2000	editor-in-chief of The European Physical Journal A (successor to Z. Phys. A)
since Sep. 2000	professor emeritus – University of Heidelberg and Max-Planck-Institut für Kernphysik
March 2005	was awarded the Stern-Gerlach-Medal
