MPIK Access Rules

... during the corona period

Do not enter the MPIK premises if

1. You are sick

You have respiratory infection or increased temperature

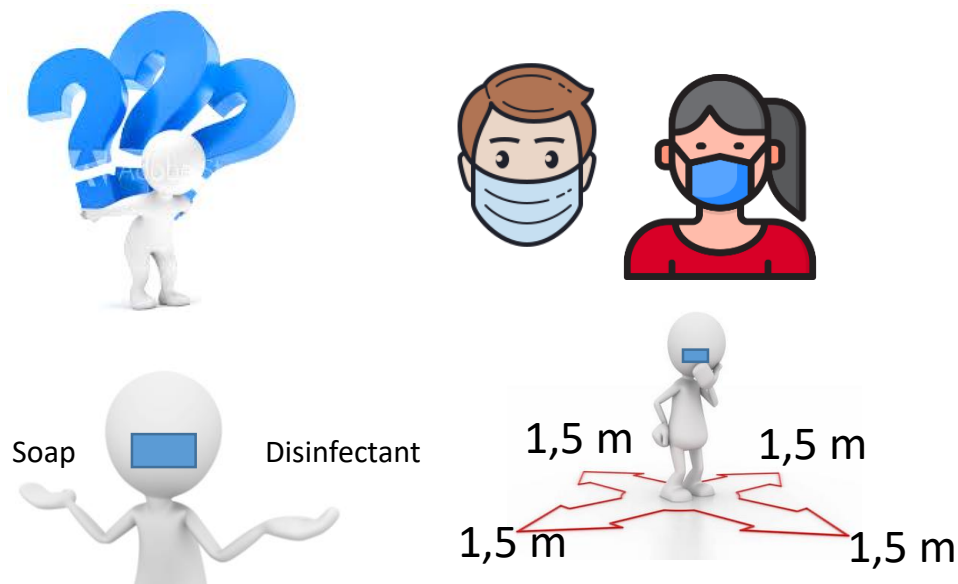

2. Had contact with infected person

In the past 14 days you had contact with a SARS-CoV-2 infected person

Got info from the health department!!!

3. Masks / Distance / Hygiene Rules??

You do not have knowledge of the obligation to wear MNB, distance rules and hygiene requirements

Flu and Corona Virus

Transmission routes:

Droplet or smear infection

How can you protect yourself from being infected with the coronavirus?

- good hand hygiene
- cough and sneeze etiquette.
(Do not sneeze or cough in the hands; sneeze in the crook of the arm)
- distance to the sick

However, in view of the current wave of flu, these measures are not only used to prevent the coronavirus, but also to prevent flu (influenza).

One of the biggest impacts against a virus is hand hygiene. To protect the skin a skin protection plan exists at the MPIK.

Skin Protection
