
Contents

Crossroads of Particle Physics and Astrophysics5

1.1 Observational Gamma-Ray Astronomy.....	6
1.2 Non-Thermal Astrophysics	14
1.3 Dark Matter.....	24
1.4 Neutrinos.....	32
1.5 Particle Physics at Accelerators	42
1.6 Physics beyond the Standard Model	46

Quantum Dynamics of Atoms and Molecules53

2.1 Precision Nuclear Ground-State Properties	54
2.2 Fundamental Tests with Trapped Ions.....	60
2.3 Atomic and Molecular Collisions.....	68
2.4 Astrophysics with Ions and Strong Light Fields	78
2.5 Time-Dependent Quantum Phenomena	84
2.6 Laser Control of Atoms and Nuclei.....	92
2.7 Matter in Extremely Intense Laser Pulses.....	98

Service Units, Facts and Figures107

3.1 Scientific Services.....	108
3.2 Technical Units.....	112
3.3 Personnel	116
3.4 Statistics	126
